

# Learning Journey - Spring 1 2018

## Roll up! Roll up!

### PSHE and RE

We will show that we can work in groups and support each other with our learning. We will demonstrate through our actions that we know what makes a good friend. We will discuss how to be caring towards animals. In RE this term, will hear stories of faith and wisdom.

### Mathematics

In addition to number work, the children will be learning and using the language relating to days, months, seasons and be able to tell and show the time for o'clock and half past. They will spot and continue patterns (Circus/Andy Warhol).

### English

Using what they have learned about the Circus, the children will be creating non-fiction leaflets to advertise the Circus. We will also be developing our descriptive writing by imagining visiting the Circus or being a performer there.

### History

We will be reflecting on how the Circus has changed and evolved over time.

### **Week 1: What do we know about the Circus?**

The children will be reviewing what they already know about the Circus using mind maps.

### **Week 2: Big Top Building**

We will be painting Circus figures and building small scale models of a Big Top tent.

### **Week 3: The First Circus**

We will need to investigate events and people from the past to understand how the Circus began.

### **Weeks 4: Caring for Animals**

We will be exploring why animals feature less in the Circus today.

### **Week 5: Circus of the Future**

Based on our learning throughout the term, we will be predicting what might be next for the Circus and creating a design.

### **Week 6: The Circus comes to Tinley Classroom**

The children will be showcasing their work on the Circus and reviewing their learning.

### PE

This term, the children in Year 1 are lucky to be taking part in weekly Gymnastics sessions. They will be developing their balance, co-ordination, strength and control.

### Art and Design, Design and Technology, Music

This term, the Green House will be transformed into a Big Top where the children will gain inspiration to perform their own Circus acts. We will be using different materials and methods to build our own Big Top tents. We will also be making large scale circus figures and clown hats.

### Computing

The children in Year 1 will be using the netbooks to consolidate learning in class and to use Publisher to create tickets/posters.

### Science

Our main scientific topic will be Animals including Humans. Children will be identifying basic features and comparing different animals. This will link to the use of animals in the Circus.
