

Moving our child to this school was the best decision we've made. They've thrived, become calmer, more confident & learnt so much.

It's so lovely to see our daughter so happy at school. We are so pleased with her progress and how much she loves all her teachers.

Staff are amazing, could not rate them high enough. The school is wonderful and I could not imagine my children at any other school. It really is a nurturing environment and I feel completely at ease knowing I am fully kept in the loop and updated with my children's progress.

Amazing school. I feel like my child is getting the same amount of attention that they would get in private education. An extremely nurturing community and the school upholds its values on a daily basis which enables the children to transfer these values into the rest of their lives.

Shipbourne School is a lovely, nurturing place filled with great opportunities and adventures. The staff are so supportive and have positive attitudes.

Our daughter loves to come home and tell us what she has learnt and about her day. The experiences/ trips the school provides are amazing. Most of which would not be possible in a larger school! Whilst it may not be the biggest school, it has the biggest heart, the kindest community and the warmest welcome.

The school has high standards for every child whilst simultaneously providing a warm, personal and nurturing environment.

At Shipbourne School, the staff is passionate about ensuring that each is safe, happy, supported and encouraged.
